# Vidhika Chakravarti

Psychologist | Product & Branding at Lillia | Bridging Behavior, Impact & Design

Pune, Maharashtra, India

## Summary

I'm a Psychologist who thrives on understanding people and solving problems creatively. Over time, my curiosity led me beyond one-on-one interactions into strengthening partnerships and creating products that put users first.

In three years at Lillia, I've grown from guiding individuals as a Health Coach & Psychologist, to managing client relationships as an Account Manager, to now shaping user-focused experiences in Product & Branding. Each role has sharpened my ability to listen deeply, adapt quickly, and solve problems with clarity and care.

I've built trust with clients, streamlined processes to improve team efficiency, and contributed to product features designed to feel intuitive and human.

I bring together psychology, product, and marketing in my work, with an aim to build meaningful solutions grounded in empathy and purpose.
